

## OIL BASED (ENAMELS)

SI-GLOSS

**Premium Glass Enamel**  
Premium quality glass finish. Available in white color and special attractive colors.  
• Higher in cost  
• Superior whiteness and hiding power  
• Superior gloss and no yellowing  
• Good UV-resistance  
• Excellent long-term durability  
**Recommended Use:**  
Suitable for interior - exterior substrates including wood, furniture, cement, concrete and metal.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton - Double Galton

SI-MATT

**Premium Synthetic Matt**  
High quality matt paint, based on superior glass finish. It can render the following features:  
• Superior hiding power  
• Superior spreading rate  
• Can be an effective top coat and under coat  
• Good ease of application and maintainability  
**Recommended Use:**  
Suitable for interior work including wood, concrete, cement, gypsum board, plaster and metal.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton - Double Galton

GOLD CROWN

**Premium Semi-gloss Enamel**  
Available in white color and wide range of colors by using Tinting Machine. It can render the following features:  
• Good whiteness and hiding power  
• Excellent long-term durability  
• Superior UV-resistance  
• Excellent long-term durability  
**Recommended Use:**  
Suitable for interior substrates including wood, concrete, cement, gypsum board, plaster and metal.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** Galton

HI-MATT 101

**Premium Synthetic Matt**  
Available in white and several attractive colors.  
• Can render the following features:  
• Very good hiding  
• Superior spreading rate  
• Good ease of application and maintainability  
**Recommended Use:**  
Suitable for interior work including wood, concrete, cement, gypsum board, plaster and metal.  
**Coverage:** 10-21 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton - Double Galton

## WOOD PAINTS (VARNISHES)

SI-WOOD

**Polyurethane Varnish**  
Premium quality varnish (clear) is available in two types: (2K Type, 1K Type)  
• Excellent long-term durability  
• High resistance to weather condition  
• Fast drying nature  
• Excellent scratch resistance  
• Bright and smooth appearance  
• Excellent gloss level and retention  
**Recommended Use:**  
Suitable for interior - exterior wood finishes such as floors, kitchen, furniture, cabinet, doors, windows, etc.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton - Double Galton

ULTRA CLEAR

**Crystal Wood Varnish**  
Superior quality varnish, designed using specially selected polyurethane resin. It can render the following features:  
• Good scratch resistance and abrasion resistance  
• Good adhesion  
• Excellent gloss appearance and retention  
• Superior UV-resistance  
• Excellent long-term durability  
**Recommended Use:**  
Suitable for interior - exterior wood finishes such as floors, kitchen, furniture, cabinet, doors, windows, etc.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton

VARNO

**Original Wood Varnish**  
Outstanding high gloss and transparent varnish, designed using good types of alkyl resin.  
**Recommended Use:**  
Suitable for interior - exterior wood finishes such as floors, kitchen, furniture, cabinet, doors, windows, etc.  
**Coverage:** 12-16 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton

## SPECIAL EFFECTS PAINTS

SIPESTAR

**Multi-color effect**  
Decorative water based finish, designed using a special pigment that gives the surface the effect of granite and marble.  
**Recommended Use:**  
Suitable for interior - exterior and exterior surfaces of concrete, cement plaster, masonry, furniture and gypsum board.  
**Coverage:** 3-4 m<sup>2</sup>/litre  
**Available Packages:** 4.5L Galton - Gal

SI-GLAZE

**Marble Enamel**  
Decorative water based finish. Available in wide range of colors by using Tinting Machine.  
• Multiple effects  
• Very chemistry appearance  
• Good and uniform color development  
**Recommended Use:**  
Suitable for interior substrates including wood, concrete, cement, gypsum board.  
**Coverage:** 11-15 m<sup>2</sup>/litre

SI-TEX

**Texture Emulsion**  
Good quality matt texture emulsion paint to give attractive texture appearance. Available in white color and the required color can be made by using Tinting Machine.  
• Chemicals structure can be obtained using different application tools  
• Good adhesion  
• Good weather and water resistance  
• Good UV-resistance  
• Good surface imperfection  
**Recommended Use:**  
• Suitable for interior - exterior surfaces of concrete, cement, gypsum board and masonry.  
**Coverage:** 14-16 m<sup>2</sup>/litre  
**Available Packages:** Galton - Gal

UNI-MIX

**Universal Colours series are general universal colours, selected to show a wide based effect systems and water based system.**  
Coloring made according are offered to later to the painter's requirement.  
• Good weather compatibility in latex and oil based system.  
• Provides higher water strength.  
• Easy, faster operations at the customer's site.  
• Quantity of 12 colors:  
Red Base 101, Fast White 102, Fast Yellow 103, Fast Orange 104, Fast Yellow Orange 105, Fast Green 106, Fast Red 107, Fast Blue 108, Orange 109, Turquoise 110, Black 112 and Magneta 113.

ACRY-GOLD

ACRY-GOLD Emulsion. A large variety of designs can be made using different application tools.  
**Available Packages:** 10L Size - 14L Size - 22L Size - 1.4kg

ACRY SILVER

ACRY SILVER Emulsion. A large variety of designs can be made using different application tools.  
**Available Packages:** 10L Size - 14L Size - 22L Size - 1.4kg

ACRY-BRONZE

ACRY-BRONZE Emulsion. A large variety of designs can be made using different application tools.  
**Available Packages:** 10L Size - 14L Size - 22L Size - 1.4kg

ACRY-MAROON

ACRY-MAROON Emulsion. A large variety of designs can be made using different application tools.  
**Available Packages:** 10L Size - 14L Size - 22L Size - 1.4kg

## SEALERS

**Super Water Sealer**  
 Good Penetration into the substrate and fast good adhesion.  
 • Super water-resistance  
 • Resistant to Acids, Alkalis, Water and Alkal  
 • High quality products for the subsequent treatments.  
**Recommended Use:**  
 Suitable for interior surfaces of Concrete, Cement, Calcium Board, Plaster, etc.  
**Coverage:** 1.5 m<sup>2</sup>/litre  
**Available in Packages:** Galvan, Pail

LATEX SEALER 1800

**Premium Sealer**  
 Designed using a good acrylic polymer to offer the following features for wall-water.  
 • Good brightness and coverage  
 • Superior resistance to water and alkali  
 • Excellent penetration into the coated substrate and into the substrate adhesion.  
 • Excellent durability.  
**Recommended Use:**  
 Suitable for interior - exterior surface of Concrete, Cement, Calcium Board.  
**Coverage:** 0.5 - 1 m<sup>2</sup>/litre  
**Available in Packages:** Galvan, Pail

DURASEAL

**Interior Putty**  
 • Excellent adhesion, very easy to apply and specially, high ability to fill cracks, surface and small holes.  
 • Good penetrability, gives a high-strength film.  
**Recommended Use:**  
 Suitable for use on walls, concrete, gypsum and woodwork.  
**Coverage:** 2.5 m<sup>2</sup>/litre  
**Available in packages:** Galvan, Pail, Bag

FLEXI

**Wall Emulsion**  
 Water based emulsion for interior use.  
**Recommended Use:**  
 Suitable for exterior surface of walls, concrete and plaster ceilings.  
**Coverage:** 12-15 m<sup>2</sup>/litre  
**Available Package:** Pail

FLEXI COAT

**Super Matt Emulsion**  
 High quality matt emulsion paint, designed using a vinyl acrylic copolymer and special additives. Available in white color and wide range of colors by using tinting machine base.  
 • Good hiding power and bright finish.  
 • Excellent resistance to water and alkali.  
 • Excellent chalking resistance.  
 • Superior wash ability.  
 • Excellent resistance using over Durability.  
**Recommended Use:**  
 Suitable for interior surface including new or previously painted walls, ceiling and gypsum board.  
**Coverage:** 8-12 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

HI-TONE 2700

**Emulsion Matt**  
 Silk coat designed using a soft high quality styrene acrylic copolymer. It can be applied on smooth effects paints, flat base, flat and matt emulsion, etc. It provides brilliant finish and additional protection against water, alkali and other. Being all-weather paint.  
**Recommended use:**  
 Suitable for interior - exterior painted walls.  
**Coverage:** 8-10 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

ACRY-STAR

## PUTTIES

**Super Quality Putty**  
 • Excellent Brightness  
 • High Consistency and Superior Workability  
 • Offering excellent filling properties for small holes, joints, porous surface, etc.  
 • Good washability.  
 • Superior film strength.  
**Recommended Use:**  
 Suitable for Concrete, Cement, Gypsum Board, Plaster, etc.  
**Coverage:** 3-4 m<sup>2</sup>/litre  
**Available Packages:** Galvan, Pail, 500ml Bottle, 10kg

LATEX PUTTY

**Acrylic Putty**  
 • Superior quality brightness  
 • High Consistency and Superior Workability  
 • Offering excellent filling properties for small holes, joints, porous surface, etc.  
 • Good washability.  
 • Superior resistance to water and alkali.  
**Recommended Use:**  
 Suitable for interior surface of Concrete, Cement, Calcium Board, Plaster, etc.  
**Coverage:** 3-4 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail, 500ml Bottle, 10kg

ACRYLIC PUTTY

## WATER BASED PAINTS

**Premium Matt Emulsion**  
 Excellent quality matt emulsion paint. Available in white color and wide range of colors by using tinting machine base.  
 • Excellent hiding power.  
 • Excellent Brightness.  
 • Superior resistance to water and alkali.  
 • Excellent chalking resistance.  
 • Excellent resistance using over Durability.  
**Recommended Use:**  
 Suitable for interior - exterior surface of Concrete, Cement, Calcium Board.  
**Coverage:** 8-12 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

SI-TONE 700

**Premium Spengling**  
 Excellent quality matt emulsion paint. Available in white color and wide range of colors by using tinting machine base.  
 • Good water-proof capability and its adhesion.  
 • Excellent Brightness and hiding power.  
 • Superior resistance to water and alkali.  
 • Excellent chalking resistance.  
**Recommended Use:**  
 Suitable for interior - exterior surface of Concrete, Cement, Calcium Board.  
**Coverage:** 10-12 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

BOND 2000

**Premium Acrylic Emulsion**  
 Superior high quality water based emulsion from the best type of pure acrylic (SBR). Available in white and all colors using the tinting machine.  
 • Good cover strength, high resistance to water and alkali.  
 • Having excellent adhesion to exterior surfaces, concrete, plaster, etc.  
**Recommended Use:**  
 Suitable for exterior wall on surface of Concrete, cement and gypsum, and also final top coat on all surface with previous texture.  
**Coverage:** Superior 1000 Series: 8-12 m<sup>2</sup>/litre  
 Superior 800 Series: 10-14 m<sup>2</sup>/litre  
 Superior 200 Series: 8-11 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

DURACRIL

**Sand Texture Emulsion**  
 Excellent quality matt emulsion paint, designed using a high polymerizing acrylic containing water based pigment.  
 • High decorative variety of finishes. Can be obtained using different application tools.  
 • Good water-proof capability to give good finish.  
 • Superior hiding and covers imperfections.  
**Recommended Use:**  
 Suitable for exterior - exterior surfaces of Concrete, Cement, Calcium Board.  
**Coverage rate:** 7-9 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail, Bag

SI-TONE

**Super Matt Emulsion**  
 • Good hiding power and brightness  
 • Good resistance to water and alkali.  
 • Good chalking resistance  
 • Ability to take more water of dilution.  
 • Acts as a good under coat for high performance top coats.  
**Recommended Use:**  
 Suitable for interior surface including new or previously painted walls, ceiling and gypsum board.  
**Coverage:** 8-12 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail

Q-TONE

**Emulsion Matt**  
 Premium quality emulsion paint. Designed using a special SBR. Free alkali content to offer excellent performance for the exterior and interior.  
 • Excellent film strength.  
 • Good flexibility and elasticity that allows ranging of thermal stress and strains.  
 • Superior resistance to UV rays, atmospheric changes and pollution.  
 • Good texture to provide nice and correct appearance on exterior application.  
**Recommended Use:**  
 Suitable for exterior surface of Concrete, Cement, Calcium Board, Plaster, etc. Also can be used to decorate the floor of all interior space.  
**Coverage:** 10-12 m<sup>2</sup>/litre  
**Available Package:** Galvan, Pail
